REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 15, 16, and 17 recite the combination of a viscous fluid coupling comprising a housing, an operation plate, a valve mechanism, a plurality of first, second and third circumferential projections, and a fluid return passage. Of particular patentable significance is the recitation that the first, second and third circumferential projections have the same axial distance respectively; that the third circumferential projections are disposed at a radially outer side of the second circumferential projections, that the third circumferential projections are smaller than the second circumferential projections (claims 15 and 16); that the dimensions third circumferential projections are ranges from two-thirds to a half of an overlapped amount of the that the first and second circumferential projections (claim 17). The resulting combinations are not shown by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
